SYED AJMAL

Full-Stack Web Developer
syedajmal1703@gmail.com +91 90805 93283 LinkedIn Github Portfolio

SUMMARY

Full-Stack Developer with 1 year of hands-on experience at Valopt, promoted from Frontend Intern to full-time Full-Stack Developer. Builds and ships production web applications with Next.js, TypeScript, and Strapi v5, and manages deployments using Docker, cPanel, Vercel, and Render. Delivered a full rebuild of the company's official website and maintained it end to end. Open to remote and global opportunities.

TECHNICAL SKILLS

- Languages **:** JavaScript (ES6+), TypeScript, HTML5, CSS3.
- Frameworks/Libraries**:** React.js, Next.js, Tailwind CSS, Shadcn/UI, Axios, Context API.
- Backend and CMS: Node.js, REST APIs, Strapi v5 (Headless CMS).
- DevOps and Deployment: Docker, cPanel, Vercel, Render, Git/GitHub.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Valopt | Remote **Jul 2026 – Present**

- Own the end-to-end delivery of the company's **official website and Client projects**, from UI in Next.js and TypeScript to content modeling in Strapi v5 and production deployment.
- Designed **custom Strapi content types** and API endpoints, enabling non-developers to update site content without code changes and cutting content **update time by 95%**.
- Containerized Strapi backend with Docker and deployed to cPanel,ensuring consistent environments across **dev and production**.
- Managed production releases and resolved performance bottlenecks to ensure **zero-downtime** deployments.
- Collaborated in agile sprint planning and daily standups to **deliver features** on schedule.

Frontend Developer Intern | Valopt | Remote **Jan 2026 – Jul 2026**

- Rebuilt the company's official website using Next.js, TypeScript, and Tailwind CSS, delivering modern , **responsive pages** with consistent cross-browser behavior.
- Built reusable UI components with Shadcn/UI and Tailwind,reducing duplicated code.
- Integrated Strapi v5 Headless CMS with the **frontend to render dynamic content** through a configuration-driven approach.
- Improved page performance, reaching a Lighthouse **score 92** and load times **under 2.1** seconds.
- Earned a full-time offer after the internship based on **performance** and way of work.

PROJECTS

Movie Scout | React, Tailwind CSS, TMDB API, Axios, Context API | GitHub

- Built a responsive movie discovery app with a **mobile-first** dark UI, integrating the **TMDB API** for search, details, and "Similar Movies" recommendations.
- Implemented a LocalStorage-backed Watchlist and shared state with Context API; achieved **sub-500ms** load times with **100+ users**.

Blog Website | React.js, Tailwind CSS, Node.js, MongoDB | GitHub

- Built a full-stack blog platform where **users create, read, and manage posts**, backed by a Node REST API and MongoDB.
- Designed responsive **React components** with Tailwind CSS and deployed the application on Render.

EDUCATION

- M.Sc in Computer Science, Pondicherry University (2024 - 2026)
- B.Sc in Computer Science, St. Joseph's College of Arts and Science (2021 - 2024)
